

Canadian Forces Memo

This template is for producing a memorandum (memo) within the Canadian Forces. It was made by using the Military Writing Guide provided for K.

Thomas by his MCpl. Following many terrible experiences of having a memo come back with formatting adjustments required, he decided to come up with a template that will for the most part print a correctly-formatted memo with little need to make tweaks by the user.

Description

This template is for producing a memorandum (memo) within the Canadian Forces. It was made by using the Military Writing Guide. Just replace the bogus text in the template with the text you need for your memo and run the file through the engine to produce a PDF.

1. These are the paragraphs where you lay out what and why you are requesting the title above. References would be added above as printed in this memo. If they are r you simply comment them out. Comments are the lines beginning with the % characte what you precede a line with to have it not print. For example, to not print any Refs, co the lines in the references block. LaTeX will take care of all spacing automatically with input from you.

2. You will need 5 blank lines left open between the last itemization in your list to the signature block. At 120% with the 12 point font and the space between lines gives us in total of vertical vspace between the end of the last paragraph and the signature block.

3. Half an inch of separation between the number and the start of the text is requ the Military Writing Guide. The text should now naturally wrap to under the digit of eac paragraph. Your editor may add a different amount so the 0.375 may have to be adjuste

4. For your consideration Sir.
