About me

Alice is a sensible prepubescent girl from a wealthy English family who finds herself in a strange world ruled by imagination and fantasy. Alice feels comfortable with her identity and has a strong sense that her environment is comprised of clear, logical, and consistent rules and features. Alice's familiarity with the world has led one critic to describe her as a "disembodied intellect". Alice displays great curiosity and attempts to fit her diverse experiences into a clear understanding of the world.

Other information

Review

Alice approaches Wonderland as an anthropologist, but maintains noblesse oblige that comes with her class status. She has confidence, education, and the Victorian virtue of good manners. of entitlement, particularly when comparing herself to Mabel, has a "poky little house," and no toys. Additionally, she flaunts her position base with anyone who will listen and becomes increasingly important of good manners as she deals with the rude creatures. Alice maintains a superior attitude and behaves with solicitude those she believes are less privileged.
